

**Dictation, Transcription, & Speech Recognition
Solutions**

Speech Recognition Veterinary Solutions

Solutions that return measurable and tangible results for
your investment.

The Fusion Suite™

DOLBEY
— SINCE 1914 —

Fusion Narrate

More accurate, customizable veterinary speech recognition.

- ✓ Compatible with all major PIMS
- ✓ Accurate speech recognition with veterinary context
- ✓ Easy to configure voice commands for automation
- ✓ Accuracy optimization service (AOS)
- ✓ On-screen controls for touch-screen devices
- ✓ Mobile dictation made possible with wireless microphone for iOS and Android

Fusion Narrate™ powered by nVoq™ is a cloud-based speech recognition solution with exceptional accuracy. You can use your desktop, iPhone® or iPad® to dictate directly into any application. Simplify the documentation workflow with Dolbey's flexible features, including Vision Click™ and the shortcut builder.

Vision Click eliminates repetitive tasks, preventing click fatigue and reducing provider burnout while completing charts in half the time of manually typing. Insert template text, open and search a website, or navigate through charts easily without being tied to your keyboard.

With the Fusion Narrate shortcut builder, you can easily configure voice commands to automate keystrokes, macros, and web browser actions. Fusion Narrate also has over 100 built-in voice commands to make PIMS navigation and data entry effortless.

A quick web-based download lets you access Fusion Narrate in the cloud from your computer.

Enhance your workflow and rely on the service and stability Dolbey has provided for over a century to attain the efficiency and productivity your practice demands.

Additional Features

- No special interface needed for integration with PIMS
- Web-based user administration
- More accurate, context-based speech recognition through recurrent neural network technology
- Automatic software updates available
- Advanced select and say navigation
- Compatibility and configurable buttons with SpeechMike, PowerMic, and Olympus microphones

Guaranteed Reliability

Fusion Narrate offers a 99.9% uptime guarantee, and an impressive record of meeting it, month after month. We make it our priority to ensure your team has the tools and support needed to be successful, which is why Dolbey has been named Best in KLAS for speech recognition categories in 2012, 2013, 2014, 2015/2016, 2018, 2019, and 2021.

Fusion Narrate also offers several features to reduce time in your documentation workflow, increase efficiency, and focus on patient care.

Accuracy

Quickly and accurately dictate medical records within your PIMS with speech recognition.

Flexibility

Self-edit speech-recognized dictations in real time or send directly to your transcription staff to review.

Security

Keep your information safe with advanced administrative security options.

Since 1914, Dolbey has provided voice recording and document management solutions designed to help healthcare organizations improve workflow, boost productivity and increase profitability.

The Fusion Suite platform is Dolbey's line of award-winning software products that includes dictation, transcription, and speech recognition solutions. Together they deliver an end-to-end solution that creates more accurate reporting for critical data elements and improves documentation, reimbursement and patient care.

How can we help you?
