

Fusion Narrate

Cloud-Based Speech Recognition

**Fusion
Narrate®**
Powered by nVoq™

Document your patient's story right the first time.

Fusion Narrate® powered by nVoq™ is a cloud-based speech recognition solution with exceptional accuracy. Simplify the documentation workflow with Dolbey's flexible features, including Fusion Narrate CAPD™ and the shortcut builder.

The Fusion Narrate CAPD solution ensures patient records equate to actionable information, accelerating coding with fewer retrospective inquiries and improving patient care with an accurate and complete report from the start.

With the Fusion Narrate shortcut builder, you can easily configure voice commands to automate keystrokes, macros, and web browser actions. Fusion Narrate also has over 100 built-in voice commands to make EHR navigation and data entry effortless.

- ✓ Wireless microphone for iOS and Android
- ✓ No on-site servers, web-based download
- ✓ Application virtualization (Citrix and VMware support)
- ✓ Accuracy optimization service (AOS)
- ✓ Customizable vocabulary and substitutions
- ✓ Built-in medical specialty dictionaries

Additional Features

- Web-based user administration
- Numerous medical specialty speech topics
- Automatic software updates
- Easy to configure voice commands for automation
- Streamlined user interface
- Web-based usage reports
- On-screen tablet controls
- Advanced select and say navigation ('No Connector' requirements)
- Compatibility and configurable buttons with SpeechMike, PowerMic, Olympus® microphones
- Dictation mode with back-end speech and Fusion Narrate Text™ transcription integration
